

How to Register: Southern Rural Water Exchange

Water Partners has a live online allocation trading room on the Southern Rural Water Exchange for the benefit of all its members. This allows traders to upload an offer that can be viewed online and accepted by other traders. Although live offers can be viewed by anyone, to upload an offer, or accept an existing offer, each trader must complete the registration process.

If you do not have an email address, please contact Water Partners and our helpful staff will work with you to access the live trading environment.
